Thesis Title	Wordy Arabized Persian literature in the Arab geographer until the seventh century AH		
Year	2006		
Abstract	<p>The subject dealt with in this thesis is of special importance. It gives importance to the descriptive geographical classifications that were related to the travelers' tales, their journeys, what they saw, the societies they observed and the social, political and economic systems prevailing in the countries they visited. Likewise, this thesis investigates the origin of the geographical terms that were used in the books that deal with the topic and the other sources appeared in the onset of the Arabic geographical literature in the middle of the third century of the Hegira till the time when Yaqoot Al-Hamawe's (Mu`jam Al-Buldan) appeared in the seventh century Hegira.</p> <p>The thesis adopted analytical descriptive approach and a comprehensive statistical means was used in studying the Arabized geographical terms appeared in the books and other sources dealt with in the present research. However the present research adopted the comparative approach to study the Arabized terms.</p> <p>The present research consists of an introduction, a priface and two parts containing seven chapters, in addition to glossary containing the geographical terms used in the thesis.</p>
